LIVINGSTATION

Vision For over 60 years, Epson has developed technologies that have profoundly affected the world. Like the fact that Epson is the number one manufacturer of LCDs used in projection engines worldwide.

Now, we're bringing our technical expertise in digital imaging to the world of home entertainment. So you'll get a whole new way to experience the thrill of a gargantuan picture – right in your own living room.

Welcome to the wide world of Epson

- Available in 47" and 57" models
- Superior image accuracy
- 3-LCD Epson technology
- HDTV-ready (720p) with native 16:9 support
- Extremely thin profile
- Advanced video processing for smooth, clear images
- Includes Epson ColorReality™, a high-precision color and image reproduction system
- Maximum connectivity options include DVI with HDCP
- Front panel connectors provide easy access
- Photo on Demand – view, print and store digital images

Store Photos

Though it boasts one of the slimmest profiles of any rear projection television, there's nothing small about its picture quality. Movies, sports and video games look amazing, thanks to Epson's patented LCD technology. And with our new Photo on Demand™ system, you can actually view, print and store digital images. This is television like you've never seen before

LIVINGSTATION
